modifications

TALL UTILITY CABINET MODEL DOORS UTILIZE A SINGLE CENTER PANEL (SGLPN)

The standard for these 58 1/2" opening height doors will remain two equally sized center panels, divided by a horizontal middle rail. The new modification will result in a door consisting of a single center panel rather than the standard.

NEWLY COMPATIBLE: WIDE STILE MODIFICATION AND INCREASED WIDTH MODIFICATION

The existing Wide Stile Modification can now be used in conjunction with the existing 1/4" Increased Width Modification.

SCOOPED ROLL TRAY UPDATE (SRT)

When specified, this modification will now apply to all roll trays within a cabinet.

6" RECESSED TOEKICK MODIFICATION

When a toe space calls for more than the standard 4" setback, the following modifications provide 6" of room, which is especially useful when specifying feet on a cabinet. Modifications include: RECTKFRT6, RECTKFRT.BK6, RECTKL6, RECTKR6, RECTKL.R6, RECTKFRT.L6, RECTKFRT.R6, RECTKFRT.L.R6, RECTKBK6, RECTKL.BK6, RECTKR.BK6, RECTKL.R.BK6, RECTKFRT.L.BK6, RECTKFRT.R.BK6, and RECTKALL6
